Let's All Give 'Em Hell

Dear Editor:

I just re-read your article "Publisher's Point Of View" and want to say that as a Sizerville area landowner greatly affected by all of this, I really do appreciate everything that you said.

While it is true that "Someone has to haul those kinds of chemicals ... ", Norfolk-Southern should also take all of the appropriate precautions ... and I don't believe

that was done here ... there is a reason that there used to be train engines stationed in Emporium for use when crossing Keating Summit ... cost-cutting is inexcusable when dealing with toxic cargo. So ... let's all "give them hell".

Anne Mulhollan,

Ohio

Keep Up The Fight!

Editor:

Thank you for your attention to the chemical spill.

Based on the headlines, I think that you are the perfect person to address this issue, make it nationally known, and fight for the best interests of this area.

I think it may be your calling, what you were sent here for.

Please for the sake of all of us that love this place, keep up the fight.

Robert A. Hunt

Charleston, WV
